

Beyond Patriarchy 2010 Workshop/Presentation Proposal

Beyond Patriarchy 2010 will:

- (1) explore the roots and legacies of patriarchy;
- (2) seek solutions to anti-body, anti-woman, anti-color, anti-queer, and anti-nature systems of violence and entitlement that harm all of us;
- (3) create a space for healing and growth.

Towards those ends, Beyond Patriarchy 2010 will serve as open space:

- a) to build awareness of issues surrounding the many forms of patriarchy;
- b) to facilitate inspiration for how our growing communities can organize resistance;
- c) to squash the dominating theory, generating new insight and dialogue within an ever-growing conversation regarding oppression of womyn, of men, and of people who are gender-variant;
- d) to take an intersectional approach to anti-oppression politics, thereby building solidarity among movements;
- e) to examine how our daily lives are affected by patriarchy; and
- f) wherein all beings come together to heal wounds and build community support.

Please answer all questions as best you can, and either bring this form to the Survival Center (EMU Suite 1) or email it to beyondpatriarchy@riseup.net. Someone will be in touch with you soon. Thank you for your work and your commitment to ending patriarchy!
